02

PCB design capability

Self-Developed Navigation Technology

01

Positioning self-recovery

- ▶ Adaptive flipping maintenance
- ▶ Adaptive kidnapping and handling

02

Actively explore cleaning

- ▶ Autonomous composition of unfamiliar region
- ▶ Autonomous cleaning of unfamiliar region

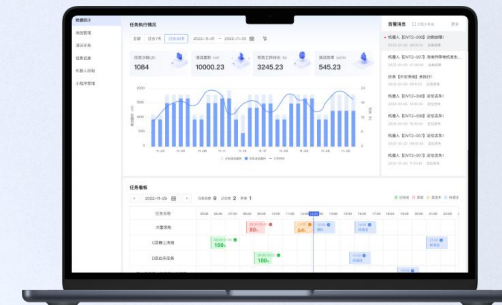

IoT Centralized Control and Equipment Linkage

01 Remote control

Cleaning Robot APP
(Support mobile phone and tablet)
(Support Android and iOS)

02 Cloud Management Platform

Data reporting
Multi-machine collaboration
Open API

Product Introduction

C3

Sweeping, Vacuuming and Mopping-Integrated Cleaning Robot

Applicable scenarios

Office towers, exhibition halls, hotel apartments, retail stores, supermarkets, etc.

It can work 3,600m² per day, which is equivalent to half a day's workload of a cleaner.

*Data source: C3 cleaning efficiency is 300m²/h, and it can work 12 hours a day for statistics; and the workload of cleaning staff in all sampled office building scenes is investigated.

Key Features

Efficient Cleaning

Compact and Flexible

Multiple sensor perception

Silent Operation

Easy to Use

All-in-one Docking Station

Efficient Cleaning

Efficient Cleaning

Vacuuming/floor washing, auto drum lifting
auto task switching

The running water is self-cleaned and
no cleaning can be achieved unless the
drum is cleaned.

All-in-one Docking Station

Auto water supply and drain

Auto add clean water and discharge sewage, with waterwheel equipped for more convenience, so the waterway is not required to be reconstructed.

Auto drying of mop

Dry rag, deodoriz and inhibit bacteria

Specifications

Item		Parameter	Item		Parameter
Basic Parameters	Overall dimensions	520*510*278mm	Mobility	Edge cleaning ability	5cm
	Operating speed	0.4~0.6m/s		Minimum clearance height	300mm
Cleaning Capacity	Battery life	4h	Perception Capability	Laser radar detection range	30m, 360 °
	Charging time	2h		Minimum obstacle height recognition	1.5cm
	Clean water tank capacity	4L		Cliff detection	√
	Wastewater tank capacity	3.5L		Carpet detection	√
	Dust bin capacity	1.3L (Main body) 10L (Workstation)	Others	Noise	Silent: ≤60 dB Standard: ≤65 dB
	Cleaning efficiency	300-700m2/h	Docking Station	Automatic charging	√
	Mopping width	370mm		Automatic water refilling and wastewater drainage	√
Mobility	Climbing ability	10 °		Automatic dust collection	√
	Obstacle crossing ability	30mm		Mop drying	√
