Q25

Every iComfort mattress is made with exclusive Carbon Fiber Memory Foam, which channels heat away from your body and provides exceptional strength for back and neck support. Crafted of breathable knit material, its Cool Touch cover gives you an instant cool-to-the-touch sensation. At the core, a Serta support system designed with premium foam features extra firm sides to reduce your chances of rolling off the bed.

Top-quality materials

All are made from natural materials, and the formaldehyde emission meets the EU standards

Precision Craftsmanship

After 200,000 anti-extrusion tests, the edges remain resistant to sagging even with prolonged sitting.

Scientific Functions

Equipped with a zoned spring system that precisely conforms to the three major curves of the human cervical spine, lumbar spine, and hips.

Stringent Quality Inspection

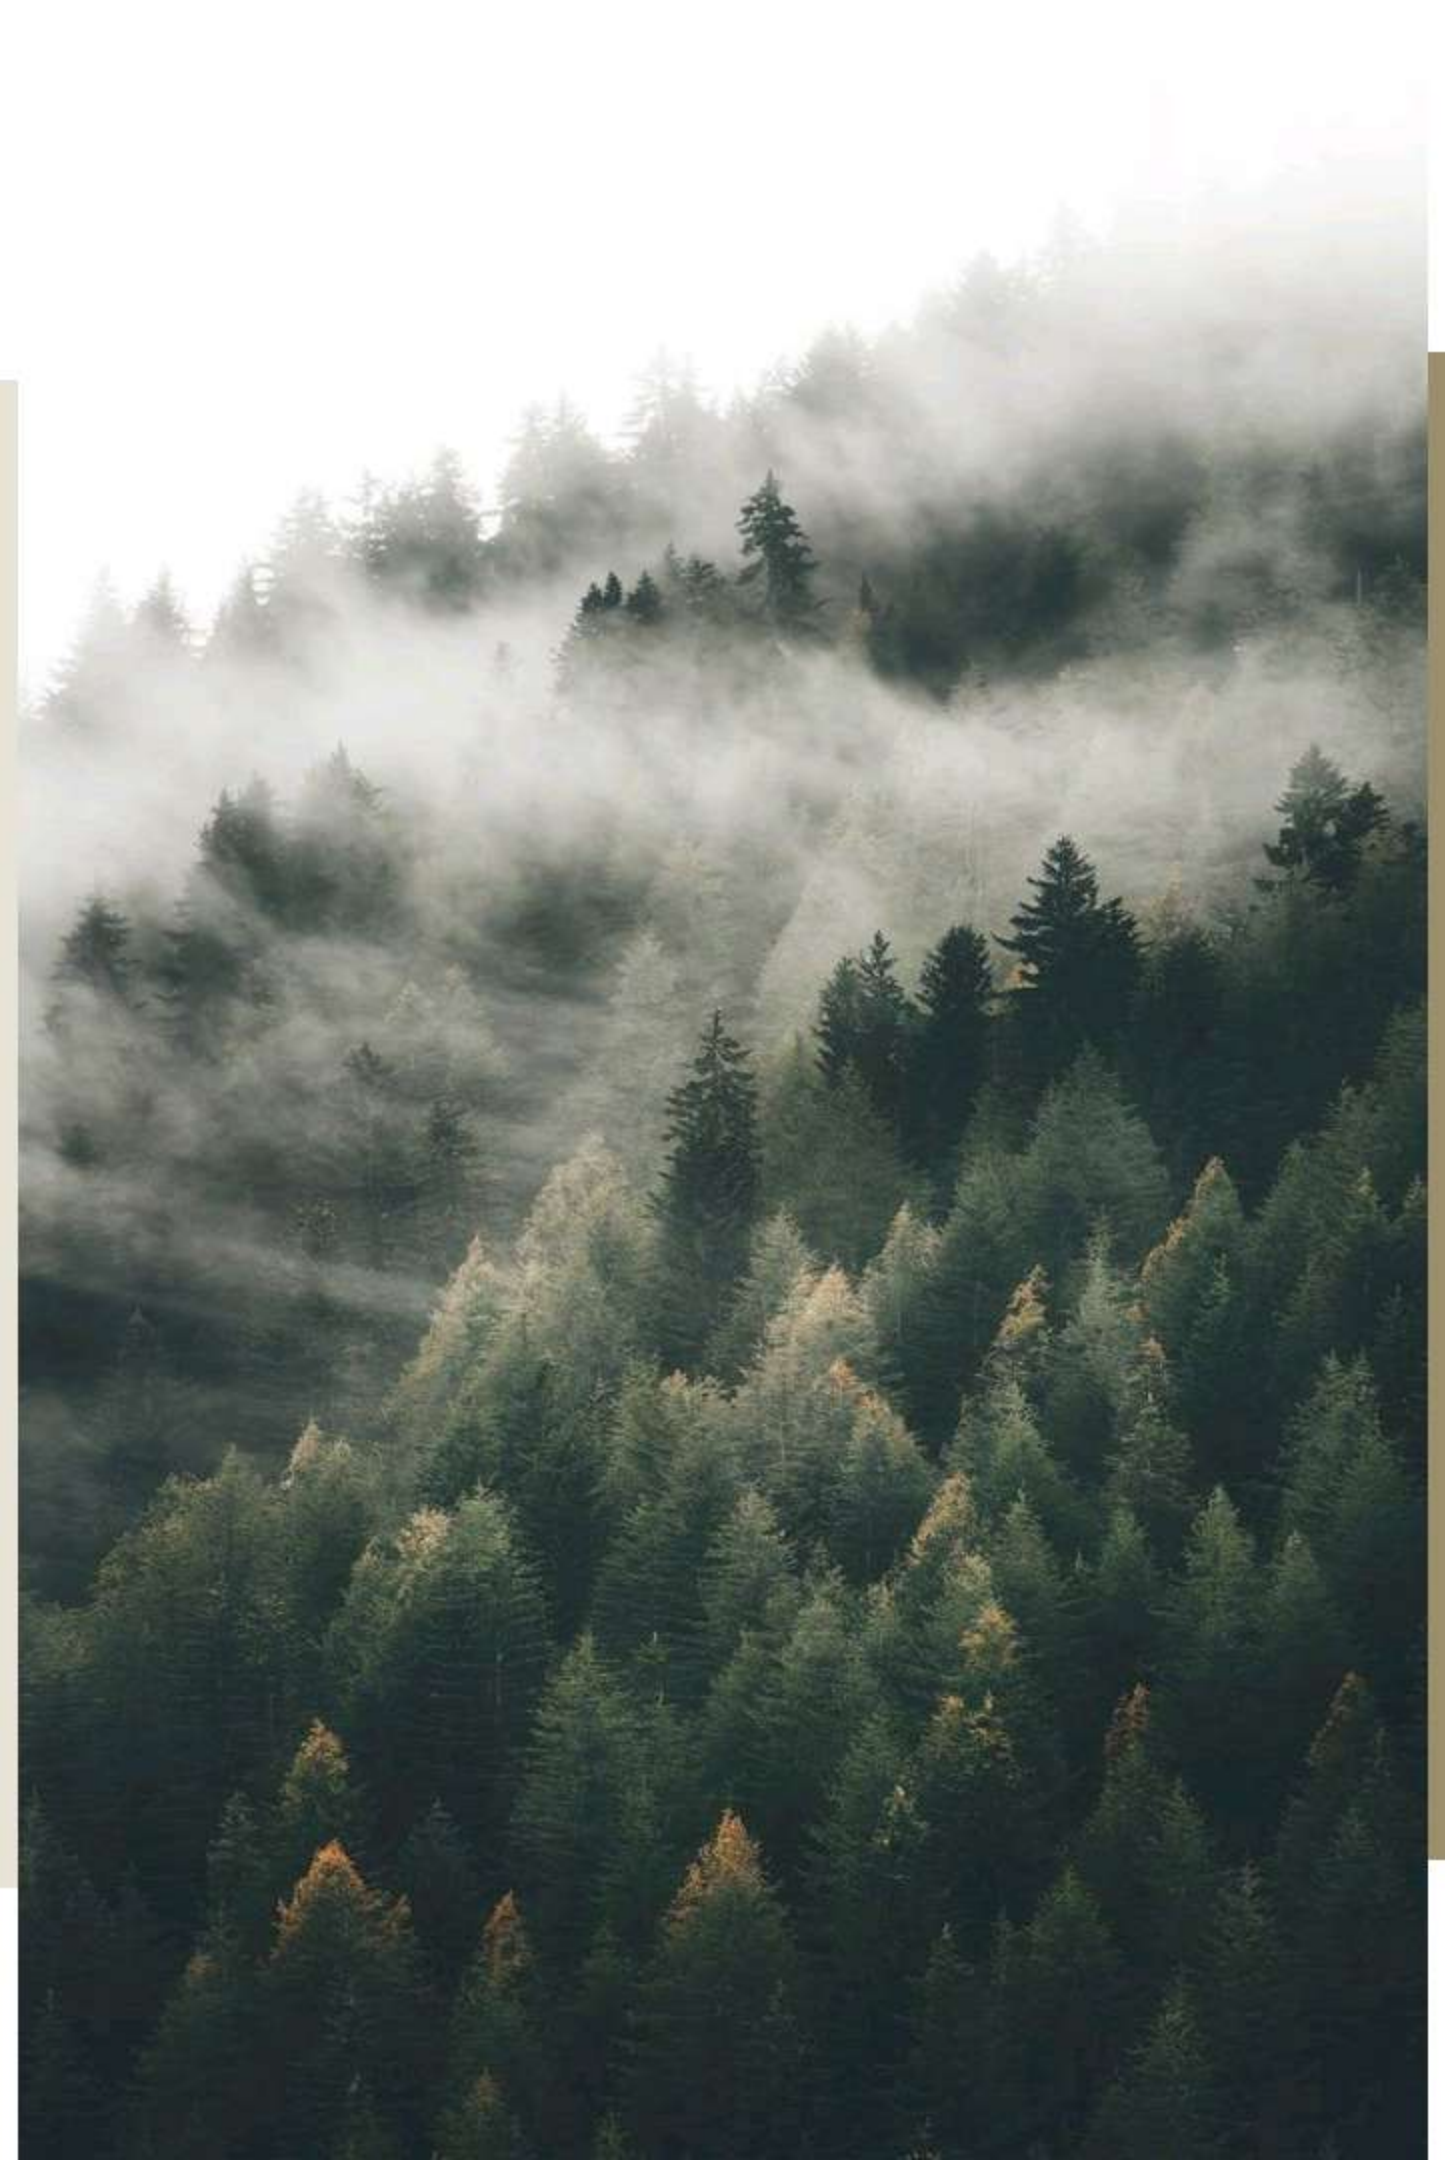

Certified by international SGS, it undergoes 28 extreme tests including high-low temperature cycles and acid-base corrosion. With a 10-year quality guarantee,

Our Commitment

Natural and Safe

with an antibacterial and anti-mite rate of 99%. The organic cotton is GOTS-certified, as soft and skin-friendly as a baby's skin, ensuring peace of mind for sensitive individuals.

Precision Craftsmanship, Ingenuity Cast

Utilizing German intelligent quilting machines with a stitch density of 12 stitches per inch to ensure the fabric and core fit tightly without deformation. The edges adopt an 8-layer reinforced binding technology with an internal steel ring support system. After 200,000 anti-extrusion tests, the edges remain resistant to sagging even with prolonged sitting, maintaining structural stability.
