Y5太空舱

基础配置清单

E5The capsule

List of the underlying configuration

外围护体系

- 镀锌钢结构框架体系
- 氟碳喷涂铝合金外壳模块
- 保温防水防潮构造体系
- 中央钢化玻璃门窗
- 中央夹胶钢化玻璃天窗
- 铝合金入户门
- 全景阳台
- Galvanized steel frame system
- Fluorocarbon sprayed aluminum alloy housing module
- Thermal insulation waterproof moisture-proof structural system
- Central toughened glass, doors and windows
- Central toughened glass skylight
- Aluminum alloy entrance door
- Panoramic balcony

室内精装

- 标准色集成天花、墙面模块
- 环保木地板
- 卫生间隐私玻璃门
- 卫生间大理石/瓷砖地面
- 定制洗手台/台盘/卫浴镜
- 马桶/龙头/花洒
- 吧台
- 全屋照明系统
- 全屋水电系统
- 2P美的变频冷暖空调
- 万家乐热水器
- Standard color integrated ceiling, Wall module
- Eco-friendly wood flooring
- Bathroom privacy glass door
- Bathroom Marble/tile floor
- Custom-made sink/tray/bathroom mirror
- Toilet/faucet/shower
- The bar
- Whole House lighting system
- The whole house water and electricity system
- 2p Midea frequency conversion heating and cooling air conditioning
- The WANJIALE water heater

客控系统

- 插卡取电/取卡断电面板
- 多情景模式功能面板照明
- 照明/窗帘智能集成控制
- 全屋智能语音控制
- 手机智能门禁
- Card Access/access card power cut-off panel
- Multi-scene mode feature panel lighting
- Intelligent integrated lighting/curtain control
- Full House intelligent voice control
- Smart phones Access

加配项目

- 墙体双层保温结构
- 电辅热地暖
- 底部发泡
- Wall double-layer thermal insulation structure
- Electric auxiliary heating heating
- Foaming at the bottom

外拓 观景 阳台 extension view balcony	户外塑木地板25mm (原木色) Outdoor Wooden Plastic wood floor 25mm (raw wood color)	因为设计了全景观景台，无立柱支撑结构，若铝合金护栏作为经常被人接触产生压力导致变形因素，容易导致玻璃碎裂，产生安全隐患，所以采用硬度及韧性更高的不锈钢材质
	阳台户外照明射灯 Balcony outdoor lighting spotlights	
	外拓不锈钢围栏 Outer extension stainless steel fence	Due to the design of the panoramic observation platform, there is no column support structure, aluminum alloy guardrail if often subjected to human contact pressure caused by deformation factors, easy to lead to glass breakage, resulting in safety risks, so the hardness and toughness of stainless steel materials are high
	阳台异型防护玻璃 Balcony shaped protective glass	双层夹胶LOW-E 玻璃 6+6 Double laminated LOW-E glass 6+6
	阳台双层门：铝合金玻璃门+精钢防盗纱窗门 Balcony double door: aluminum alloy glass door + steel anti-theft screen door	6+12A+6钢化玻璃 6+12A+6 tempered glass

运输阶段:

标准货车为13.5米长半挂车，运输宽度为3米，运输高度不大于4.2米，可全国高速路自由通行。

Transport:

Standard truck for 13.5 meters long semi-trailer, transport width of 3 meters, transport height of not more than 4.2 meters, the national highway free access.

吊装阶段:

货物抵达现场后，需要客户自行联络当地的吊车服务，产品吊装重量在6至10吨，建议选用不小于25吨级别的吊车装卸。

Hoisting:

After the goods arrive at the site, customers need to contact the local crane service, product lifting weight of 6 to 10 tons, the proposed use of no less than 25 tons of crane loading and unloading.

安装阶段:

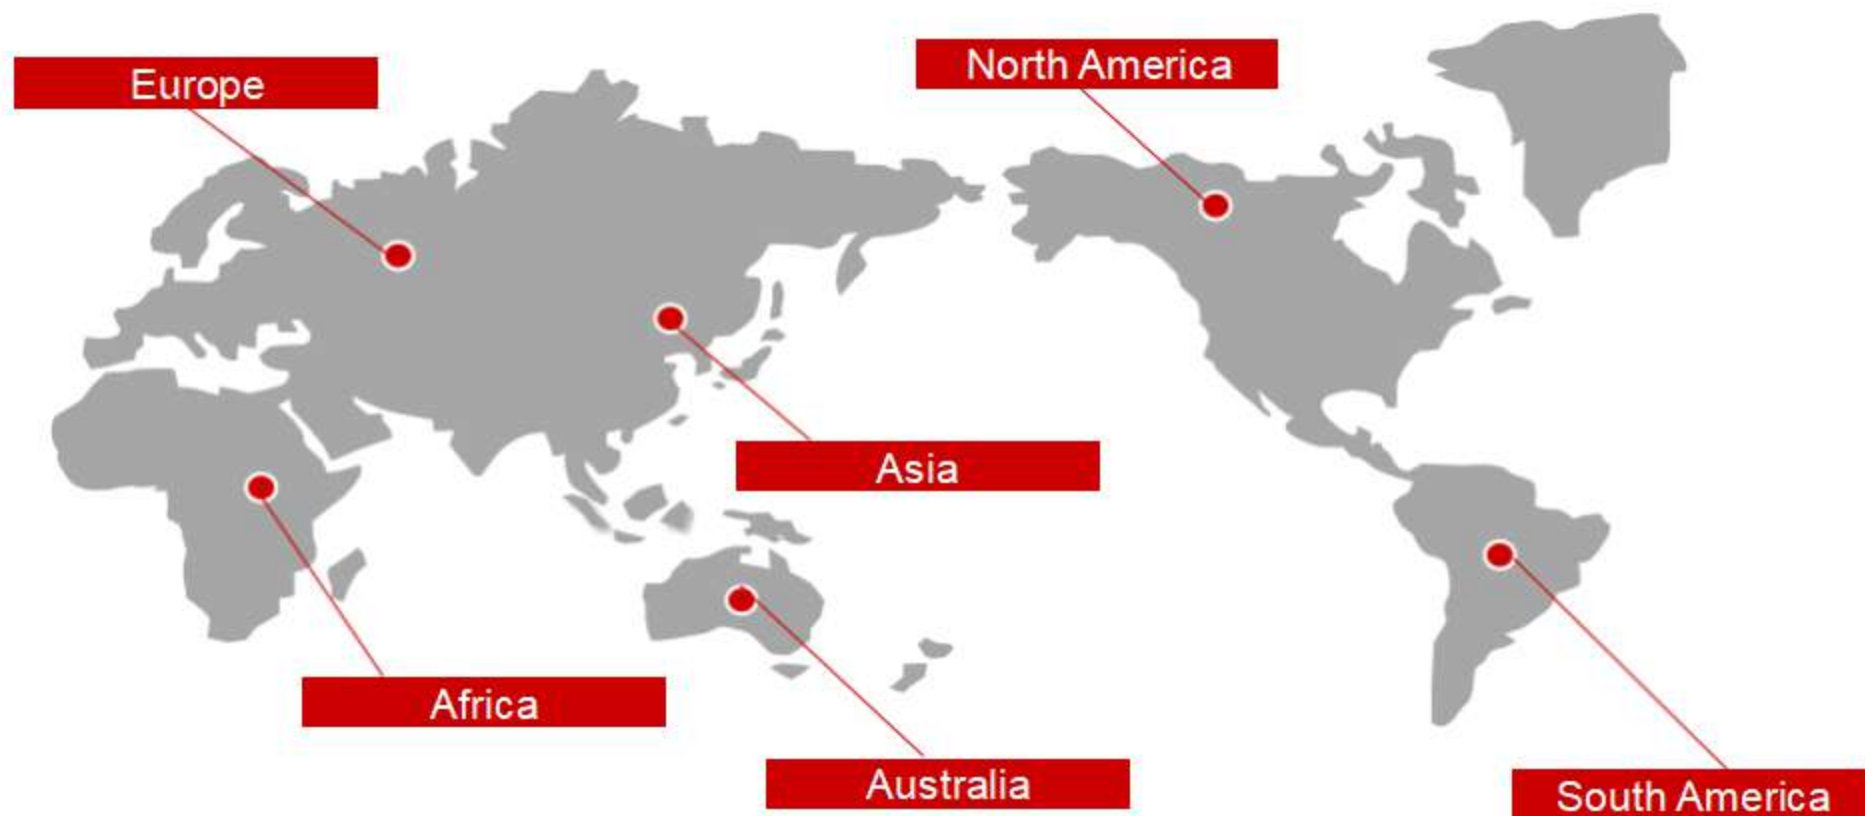

在我司技术员的指导下，完成给水、给电、排污管线及承重基础的现场工程，精准落位到设计的安装点位，接通水电后，完成通水通电测试，交由客户验收。

Installation:

Under the guidance of our technician, complete the site works of water supply, power supply, sewage pipeline and load-bearing foundation, accurately set to the designed installation point, after connecting the water and electricity, complete the water and electricity test, customer acceptance.

International market distribution

实力加自信就是一个坚韧不可摧的团队。站在每一个人都想挑战自我的立场上，我们以实力为盾、

自信为矛、团结为勇气，组成了激情无畏的团体。我们会用实力证明，我们是最棒的，让我们勇敢地去吧。

Strength plus confidence is a tough and unbreakable team. Standing in the position that everyone wants to challenge themselves, we take strength as a shield, self-confidence as a spear, unity as courage, forming a passionate and fearless group. We will prove with strength, we are the best, let us be brave to do it.

全景视野 回归自然

Panoramic view, Back to
nature

270°全景落地窗，保温
隔热，睡在风景里，享
受纯粹的自然乐趣

Panoramic windows, thermal
insulation, sleep in the scenery,
enjoy the pure natural fun

项目投资优势 Advantages of project investment

项目落地快

Project landing fast

从投资到运营，
时间最快2个月内
就可以完成

From investment to
operation, the fastest
time can be completed
within 2 months

项目回本快

Quick Payback

一般固定投资需要4-5
年，甚至更长时间才能
回本，而本项目只需要
2-3年就可以回本

The general fixed investment
needs 4-5 years, even longer
time to return the cost, but this
project only needs 2-3 years
can return the cost

项目收益周期长

The yield cycle is long

由于产品设计使用寿命
为30-50年，所以收益
长达30年以上

As the product design life of 30-
50 years, so the benefits of up to
30 years

项目可移动性

Project portability

与很多一次投资只能在
固定的地方相比，本项
目可以转移不同地方经
营，减少了投资风险

Compared with a lot of one-time
investment can only be in a
fixed place, the project can be
transferred to different places of
operation, reducing the
investment risk

项目可行性好

Good feasibility

由于不占用土地指标、
不需要太多的审批指
标，因此项目可行性
大幅度提高

The feasibility of the project
has been greatly improved
due to the non-occupation of
land and the lack of need for
too many examination and
approval indicators
